

## PROJECT DETAILS

### LOCATION

Unincorporated Glendale Heights  
Milton Township

### ISSUE

Multiple properties and  
roadways experience  
significant flooding during  
storm events

### SOLUTION

Expansion of detention in the  
area and storm sewer  
improvements

### BENEFIT

The reduction and elimination  
of flooding for 20+ properties

### COST ESTIMATE

\$300,000

### DISTRICTS REPRESENTED

US Senate - Illinois

US Representative District 8

IL Senate District 23

IL Representative District 46

County Board District 4

## NELSON'S HIGHVIEW (NEWTON & SECOND)

## PROJECT HISTORY & INFORMATION

The Nelson's Highview neighborhood in Unincorporated Glendale Heights has an existing storm sewer system and vacant land to control flooding. However, during medium to large storm events, the existing system cannot handle the flows. The excess stormwater causes damage to numerous residential properties and creates road closures, which potentially limits

emergency vehicle access. The solution includes excavating a local detention/retention pond, installing a storm sewer to transport floodwater to the pond and outlet improvements and downstream main lines. In addition, native wetland enhancements and the installation of best management practices could be incorporated to improve natural habitat.
